Orientile

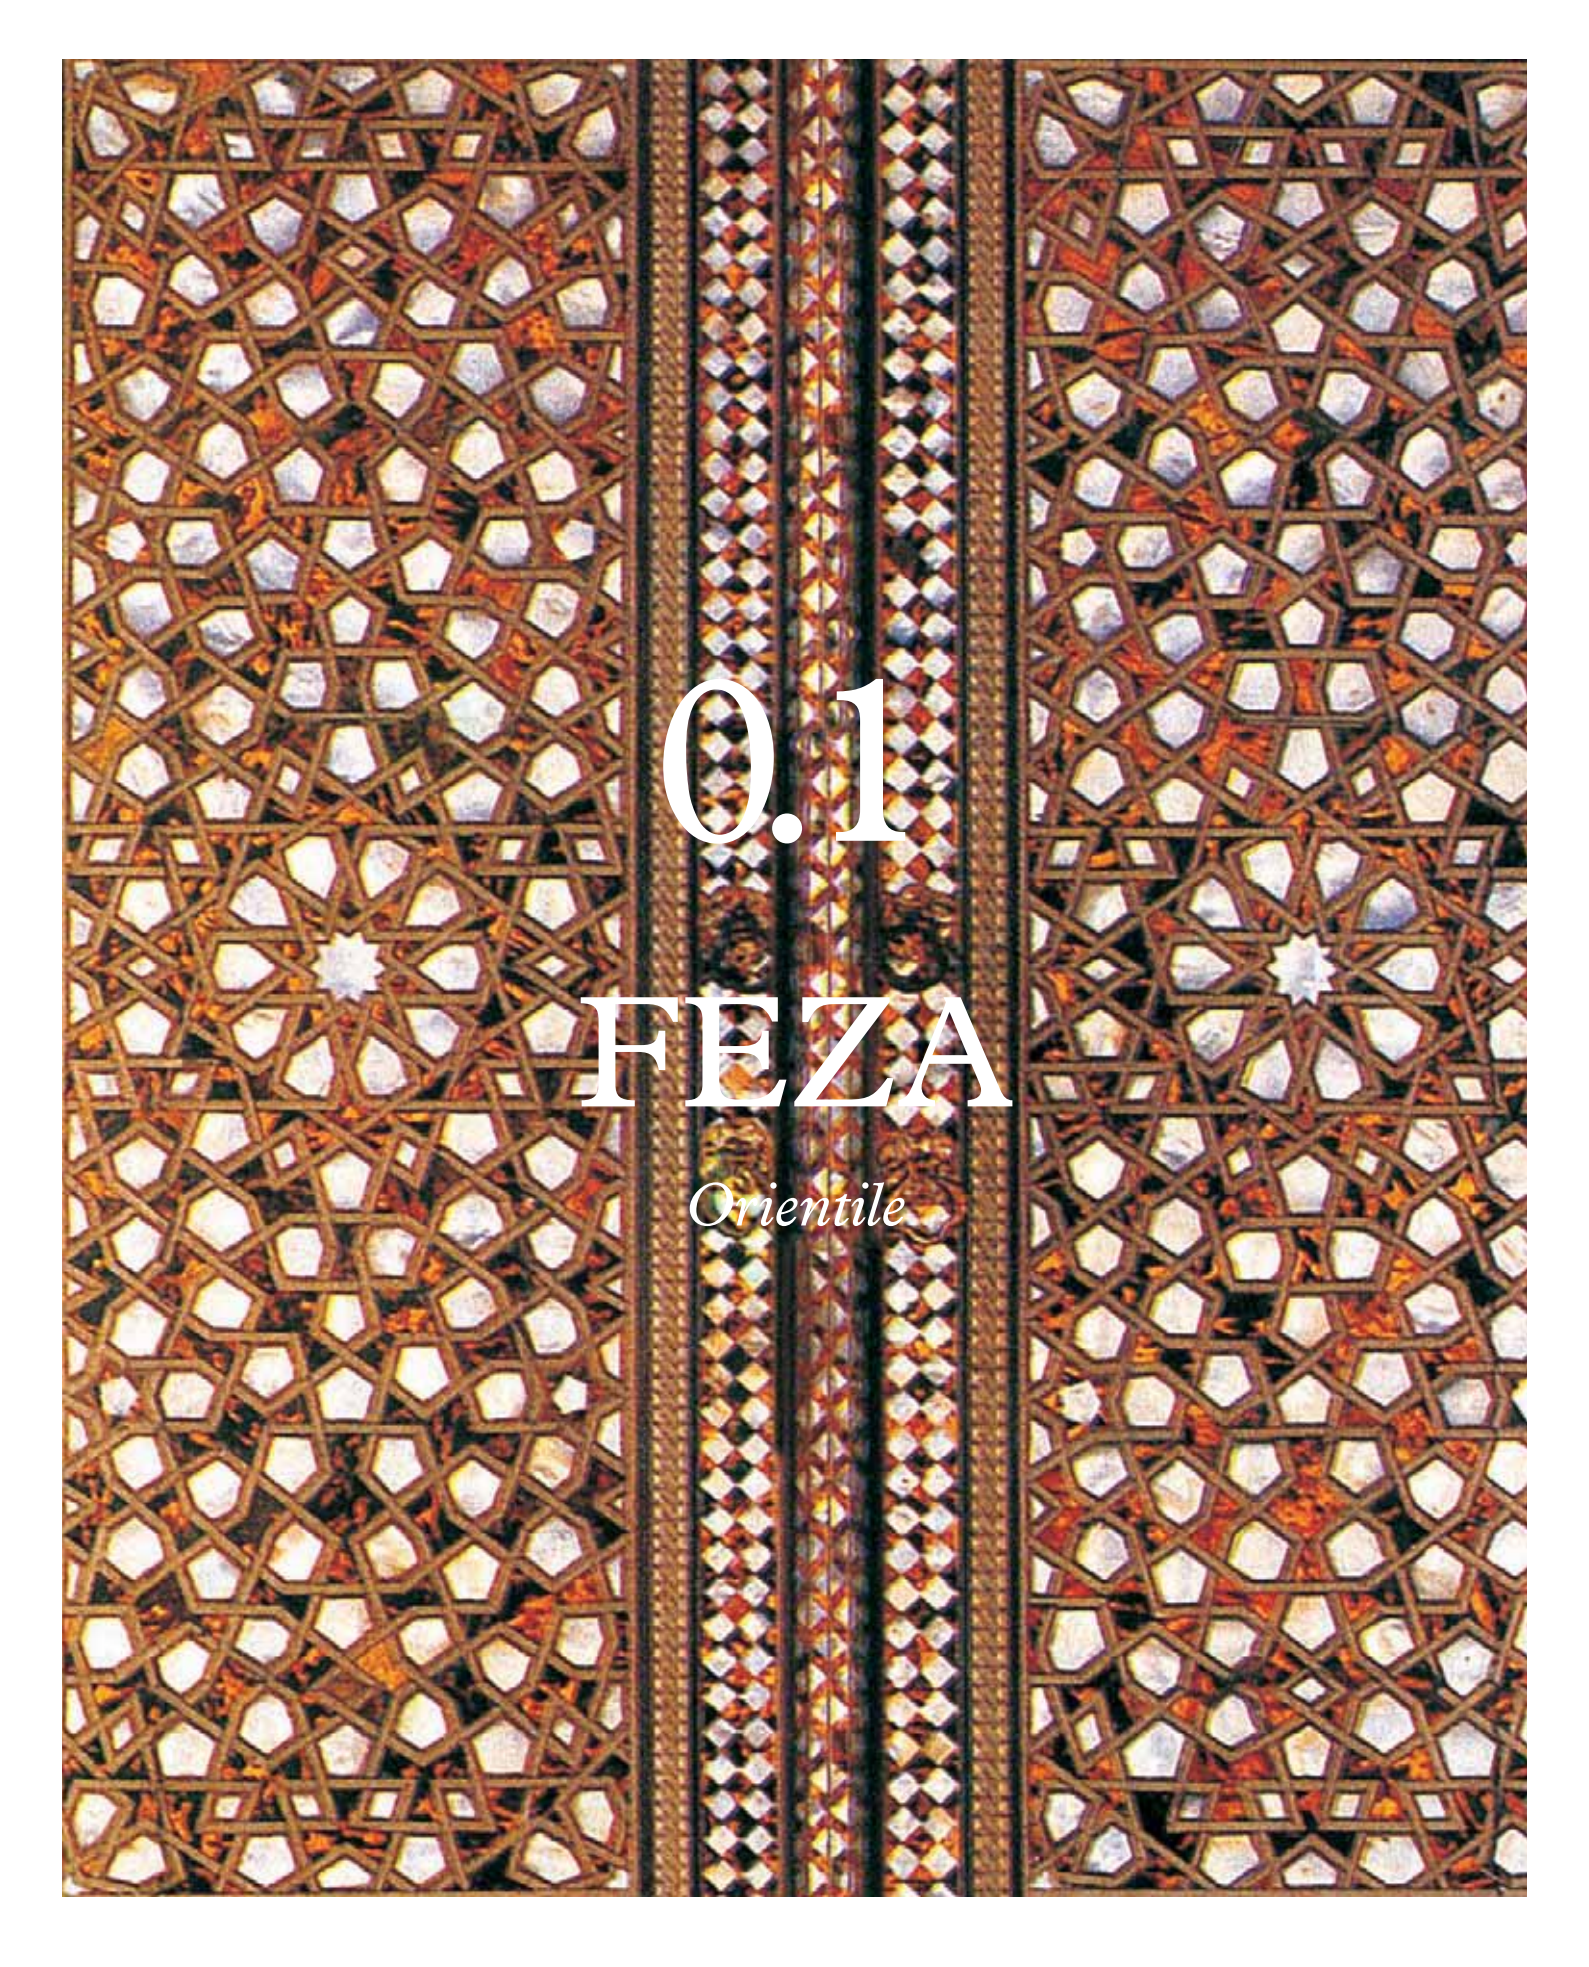

Can Yalman imzalı Orientile Serisi'nde Osmanlı ve Selçuklu kültürlerinin zengin tarihsel dokusu seramiğe yansıyor. Saray avlularında dolaşmış kaftanlar, cariyelerin göz nuru altın sırmalar, tarihe tanıklık etmiş geleneksel motifler, seramiklerde yeniden hayat buluyor. Geçmişin izleri, yepyeni formlar ve özel döşeme yöntemleriyle günümüze ulaşıyor.

The rich historical textures of the Ottoman and Seljuk cultures are reflected on ceramics in the Orientile Series designed by Can Yalman. Robes strolling in palace courtyards, golden threads made with the handicraft of the bondmaids, and traditional motifs that witnessed history all come to life again in ceramics. These traces of the past meet the contemporary world via brand new forms and special application methods.

Orientile Koleksiyonu'ndan Feza Serisi ile Selçuklu kültürünün tarihsel unsurlarıyla birbirini tamamlayan parçalar, ahşap ve taş kakma ustalarının yüzyıllar boyunca kullandığı formlarla yeniden hayat buluyor. Tarihten gelen esintiler, banyoları yeniden şekillendiriyor.

In the Feza Series from the Orientile Collection, pieces which complement each other using historical components of the Seljuk culture come to life again with forms which have been used by wood and stone marquetry craftsman for centuries. Breezes from the pages of history refresh the look of bathrooms.

Yılan derisinden esinlenilerek tasarlanan Snake Serisi, yılanın eşkenar dörtgen pullarını seramik karolara taşıyor. Bu karolar bir araya geldiğinde duvarlar adeta canlanıyor. Üstelik Snake'teki beyaz-siyah, sarı-yeşil, bej-yeşil, kahve ve fuşya renkleriyle her zevke göre kombinasyonlar yaratılabiliyor.

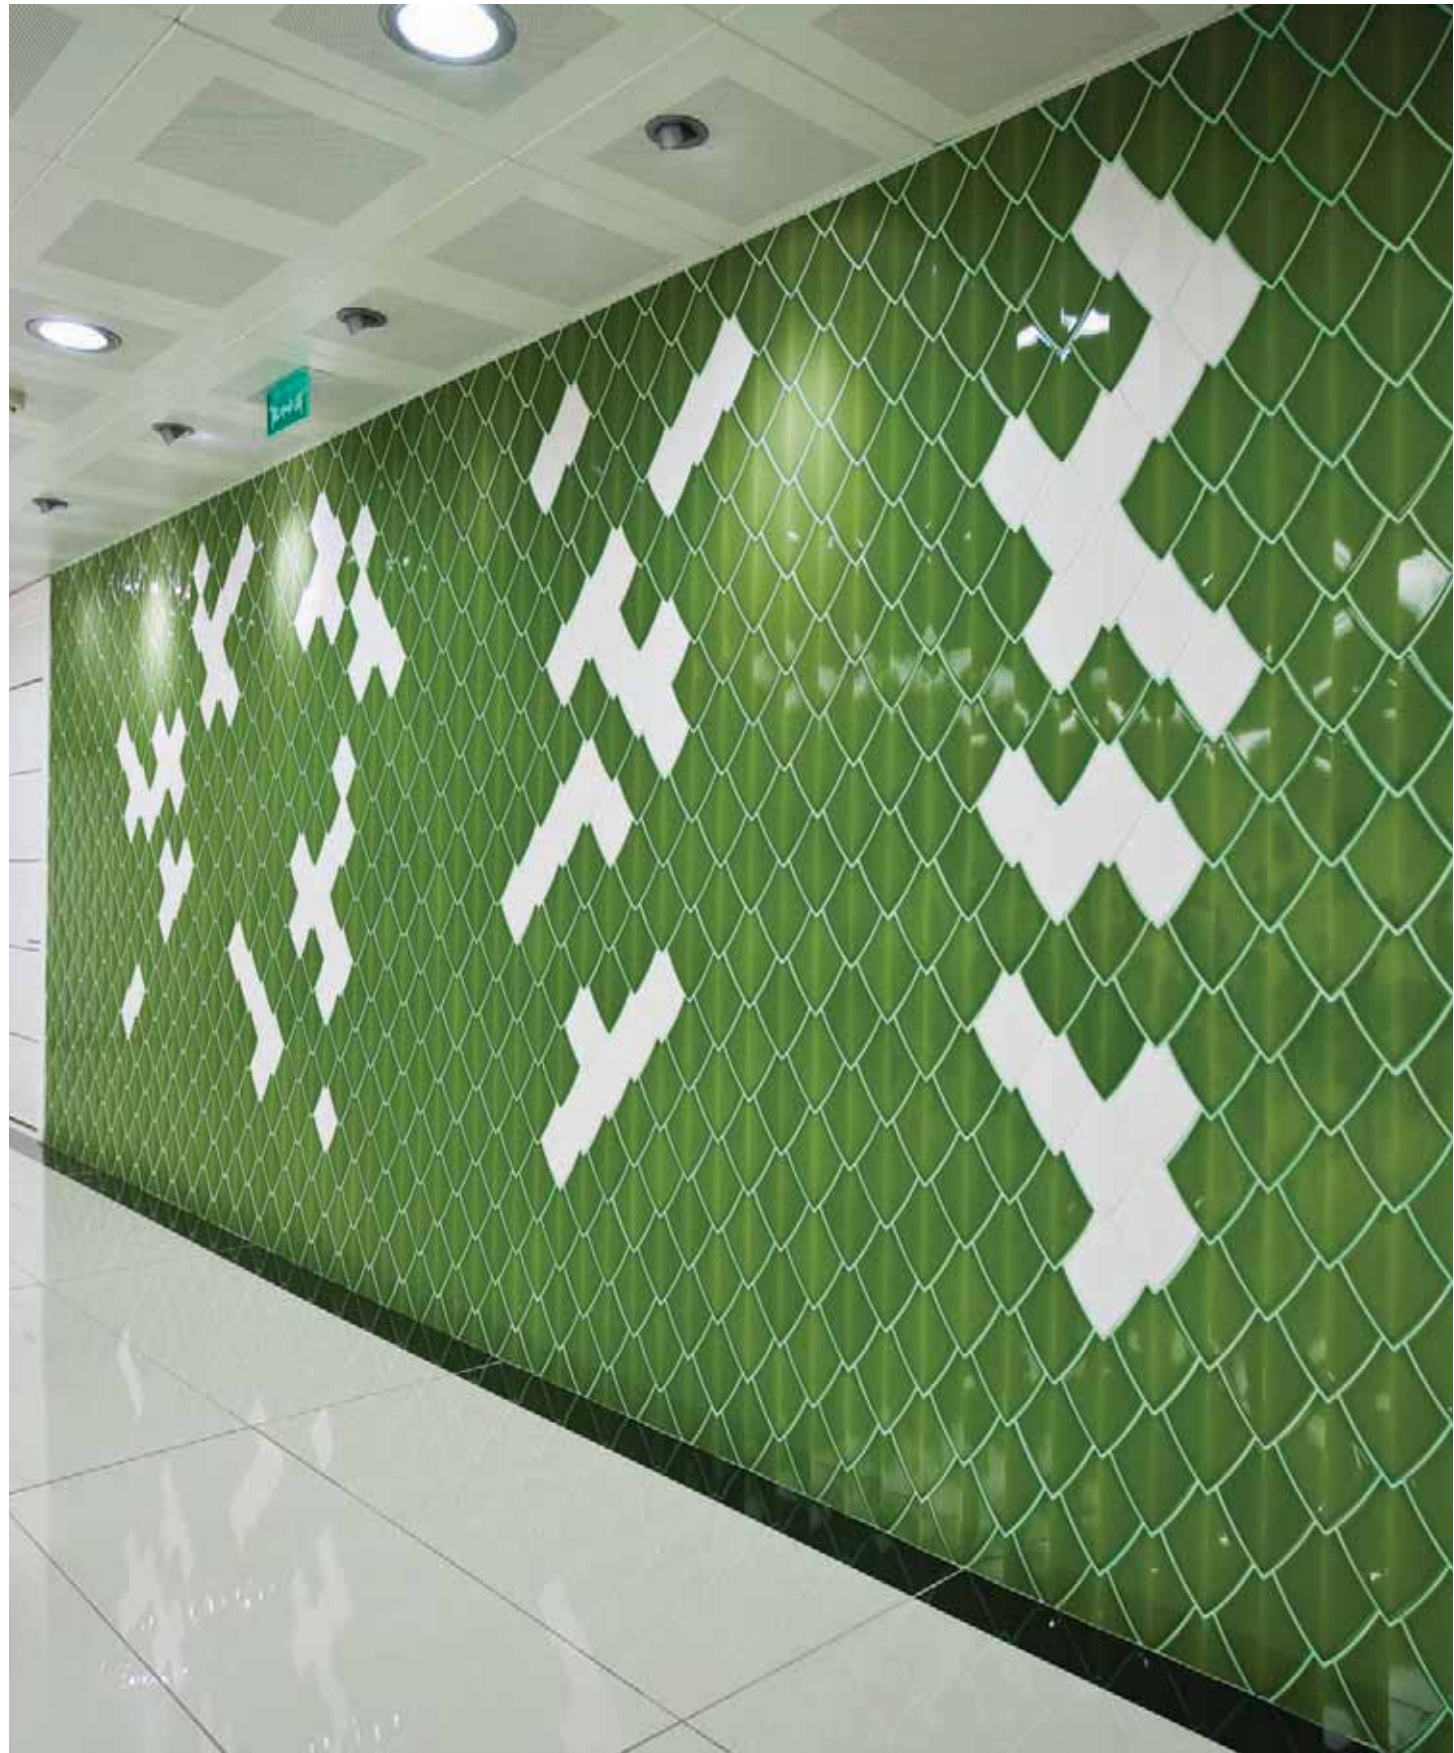

Designed by taking inspiration from snakeskin, the Snake Series brings rhombic snake scales to ceramic tiles. When these tiles come together, walls are virtually rejuvenated. Moreover, combinations can be created for every taste with the white-black, yellow-green, beige-green, brown and fuchsia color alternatives available.

A detailed close-up photograph of a snake's head, focusing on the intricate pattern of its scales. The scales are dark, possibly black or very dark brown, with a glossy sheen that reflects light, creating highlights and shadows that emphasize their texture. The pattern is a regular, overlapping grid of small, rounded scales. In the upper center, a small, dark, circular opening, likely the snake's nostril, is visible. The text "0.5 SNAKE" is overlaid in the center, with "0.5" in a large, white, serif font and "SNAKE" in a smaller, white, serif font. Below "SNAKE", the word "Reptile" is written in a smaller, white, italicized serif font.

Cube&Dot

Genç tasarımcı Tamer Nakışçı tarafından yaratılan koleksiyon dijitalleşme ve kişiselleşme olgularının altını çizen yepyeni ifade tarzı yaratıyor. Birbiriyle uyumlu seramik lavabo ve banyo mobilyalarından oluşan koleksiyondaki bütünsel mekan anlayışı, vitrifiyeden derz dolgulara kadar birbirini tamamlayan öğelerle destekleniyor. Cube ve Dot serilerine uyumlu derz dolgu renkleri, tasarımcıyı her açıdan destekleyen seçenekler sunuyor.

Created by young designer Tamer Nakışçı, this collection creates a brand new expression of style that calls attention to digitalization and individualization. Cube&Dot's holistic understanding of space includes compatible ceramic washbasins and bathroom furniture, and is supported by additional complementary elements ranging from vitrified products to grouting mortar. Grouting mortar colors, which are also compatible with the Cube and Dot Series, offer options that will support the designer's vision as well.

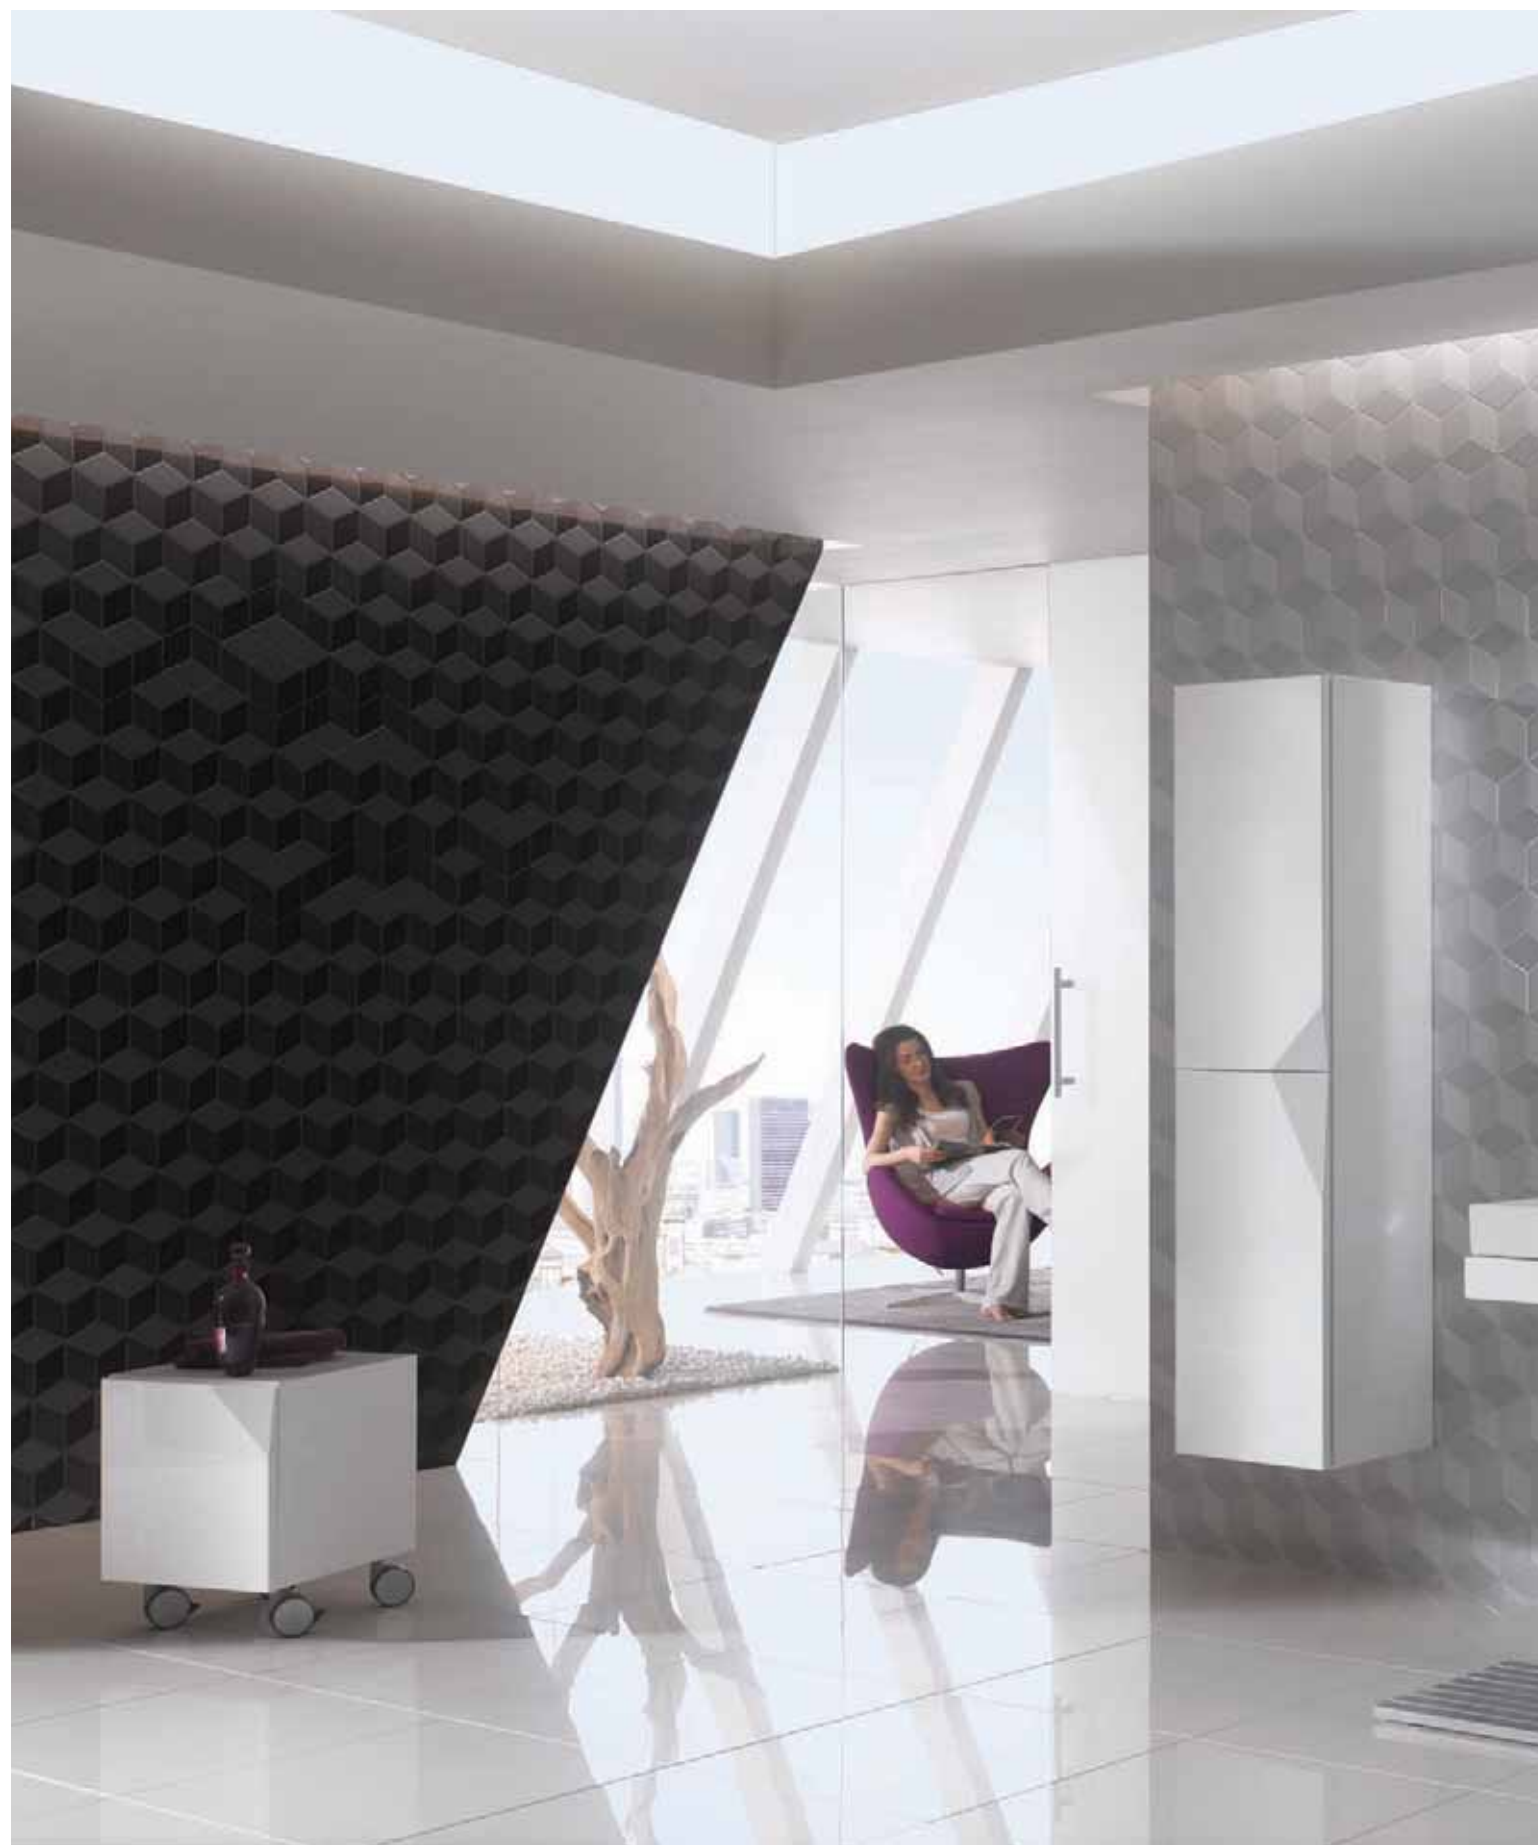

Alışıl gelmiş formlardan sıyrılan ve tasarımın çarpıcı etkisine vurgu yapan Cube Serisi ile seramikte renk ve form, hiç bu kadar ilham verici olmamıştı. Cube bu iki kavramı, tasarımcının özgürce şekillendirebileceği, mekanları yeniden yaratabileceği bir araca dönüştürüyor. Duvarlara hayat veren bu çeşitlilik, üçüncü boyutun çekici etkisini tasarımcının hizmetine sunuyor.

Color and form have never before been so inspiring in ceramics thanks to the Cube Series that goes beyond ordinary forms and underlines the striking effect of design. Cube turns these two concepts into tools that can be freely shaped by the designer in order to recreate any space. This diversity, which enlivens walls, puts the attractiveness of three-dimensional effects into the service of the designer.

Işık doğudan yükseliyor. Işık ve gölgenin eşsiz dansından ilham alan, sanatsal ve matematiksel teorilerden esinlenilerek Japonya tasarımcı Isao Hosoe tarafından tasarlanan Light⁺ Serisi, mükemmeli arayanlara hitap ediyor. Yalın duruşunun içinde zekice tasarlanmış bir ruh taşıyan seriyle beraber banyolar için yepyeni bir çağ başlıyor. Kağıt katlama sanatı Origami'nin banyolardaki yansıması olan seri, kullanıldığı mekana kusursuz bir görsellik katmakla kalmıyor, görenlerde de büyük hayranlık uyandırıyor.

Light rises from east. Created by Japanese designer Isao Hosoe by taking inspiration from the unique dance of light and shadow as well as from artistic and mathematical theories, the Light⁺ Series appeals to those who seek perfection. CTDA Renk Ton Farkı Rehberi / Shade Variation

Farklı partiler şeklinde üretilen karolar arasında veya aynı üretim partisindeki karolann kendi aralarında belli derecelerde renk tonlarında farklılıklar oluşur. Kabul edilebilir renk ton farklılıklarını belirlemek için en azından aynı üretim partisine ait karolardan bir miktar mümkün oldukça gözden geçirilmelidir. Karolann seçimi hakkında oluşabilecek herhangi bir soru veya endişenin düğeme işleminde önce netleşmesi gereklidir.

V1= AYNI GÖRÜNÜM: Karodan karoya çok az ve önemsiz farklılıklarla her bir karo aynı doku, renk, ton ve motifle sahiptir.

V2= HAFİF FARKLILIK: Doku ve/veya desende aynı renkler arasında farklılıklar olabilir. Karolann genel görünüşü oldukça benzerdir.

V3= ÖNEMLİ FARKLILIK: Bir karoda bulunan renkler diğer karolardaki renkler hakkında bilgi vermekle birlikte renk yoğunluğunda önemli derecede farklılık gösterir. Karo üzerinde önemsiz gibi görünen bir renk diğer bir karo üzerinde ağırlıklı renk olabilir.

V4= RASTGELE FARKLILIK: Bir karo diğer bir karoya göre tamamen farklı renkte olabilir. Bu karolar tüketici tarafından birkaç parça çıkarılacak şekilde seçilemezler. Renk farklılıklarından dolayı karolarda doğal bir görünüm vardır. Bu yüzden herbir düğeme özgün yapıda olur.

The color shade or shades of all tiles varies some degree from piece to piece, from each production run to run. At least several pieces from the same production should be reviewed whenever possible to determine acceptable color shade variations. Any questions or concerns about your tile selection should be clarified prior to installation.

V1= UNIFORM APPEARANCE: Differences among pieces from the same production run are minimal.

V2= SLIGHT VARIATION: Clearly distinguishable differences in texture and/or pattern within similar colors.

V3= MODERATE VARIATION: While the colors present on a single piece of tile will be indicative of the colors to be expected on the other tiles, the amount of colors on each piece may vary significantly. For example "that little bit of color" on one piece of tile may be the primary color on the next piece.

V4= RANDOM VARIATION: Random color differences from tile to tile, so that one tile may have totally different colors from that on other tiles. Thus, the final installation will be unique.
